Press/Tv/Radio matters over the past month 15.5.94 - 15.6.94 :

-----  
Television :

This Morning 17.5.94 : J.E.MACK Phd : New Book : Abduction.

I only managed to record the second half of the interview with John E.Mack.If anyone out there has both parts,then please could I borrow the video to copy it ?

What I did see,was the phone in with people telling their stories of abductions/encounters with aliens from outer space. It is very hard to really believe these people when they phone in with their experience,because anyone could pick up the phone and become an instant star.But,what I did hear,was very interesting and John E.Mack was very interested in the stories.(A book that would well be worth obtaining..see newspaper article reviews..)

CBS News : 48HRS : ARE WE ALONE ?.. 28.5.94 :

A special news report looking at the world of abductions.The programme featured Budd Hopkins and John E.Mack and his new Abductions.People were interviewed who alleged that they had alien encounters and abductions.This was a very interesting look at the abduction scenario,although a lot of it went over old ground.

Sightings (Sky Tv) : 3.6.94 :

---

This looked at two subjects this week. The first was a look at Encounters in Space and the film footage taken from Discovery on on the 12th September 1994. The footage showed at least three ufo's, one of which that made a 90 degree turn out into space after it appeared to of been fired at from planet earth by some sought of rocket/laser.

The second part of the show looked at the Marfa Lights and a ghost update.

Forthcoming Tv Items :

---

16.6.94 : SKY TV. Nothing known about this item at present, but if you contact me nearer the time, I hope to have more details. Failing that just look at the satellite Tv program mags for more details nearer the time.

24.6.94 : James Whale Show : Features Roy Lake.  
This is all I know about this forthcoming item, but I hope Roy Lake knows what he is doing. I only say because I have seen previous items on the show featuring ufo witness (Alan Godfrey), & it made me cringe in my shoes when I watched the program.

25.6.94 : SKY TV. Again, not a lot more known about this, so as before watch out for it in Tv magazines etc, or give me a ring nearer the time.

Press Reports :

---

Sunday People : 15.4.94 : Major Gets Rocket Over Ufos.

---

Ufo experts are demanding that John Major comes clean on official top-secret reports of flying saucers.

They claim there is a 'massive cover-up' by the British, US and Russian governments.

Their campaign to open the files was boosted by a disturbing People investigation which revealed how UFO-logists believe aliens are abducting humans to perform sickening live experiments.

'The public has a right to know if we have made contact with other life forms', said John Holman of Alien Acknowledgement Campaign.

'We believe it is the military who are with-holding the information and we want the truth'.

Daily Express : 20.5.94 :

---

Article reviews John E.Mack's new book : Abduction : Human Encounters With Aliens. (Simon & Schuster, £16.99).

A very fair review of John's new book and following his recent TV appearance on TV's This Morning Show, which sparked 700 telephone calls from viewers who have been abducted or had encounters with aliens. As he says 'I cannot prove any of this', after working with 90 people and after hearing from over 700 people, who relate such experiences, then what am I supposed to think ?

Daily Mirror : 30.5.94 : 999 - HELP! THE MARTIANS ARE COMING.

---

A Meteor triggered a flying saucer panic throughout four counties yesterday when it broke up in flames as it hit the earth's atmosphere.

It caused an enormous orange glow in the sky over Norfolk, Suffolk, East Anglia and Essex and police were swamped with frantic calls claiming that the Martians had landed.

The Coastguard were asked to look out for flares from a vessel in distress and radar checks were made for missing aircraft, but everything was normal.

A police spokesman said : 'We haven't had any reports of damage to land or property.'

'Nor have any little green men or UFOs been sighted so far.'

'But as soon as they are we will definitely warn the public!.'

The People : 29.9.94 : UFO VIDEO SPARKS NEW ALIEN FEARS...

---

Video film evidence of a mushroom-shaped 'Spaceship' hovering over a town's rooftops is to be examined by UFO experts.

Night after night stunned residents have seen the silent, sparkling object spinning to and fro above their homes for up to an hour at a time.

They are convinced they are being watched by aliens from outer space. And their claims are backed by the Earl of Kimberley, a member of the House of Lords all-party UFO study group.

The Earl's stately House is only a short distance from Pinehurst, Swindon, Wiltshire, where the sighting was recorded.

After hearing the mystery craft he said : 'There are other civilizations more advanced than ours.'

Ray and Eleanor Baughn were the first to spot the flying mushroom two years ago. Since then, several neighbours have also seen it.

Disabled Ray, 49, who took the video film, is eager to hear what experts have to say after they've studied it.

He said : 'When I look at it through binoculars I can see pointed, leg-like objects jutting from both sides before it zooms off at great speed.

'I'm convinced it is from outer space. It is not a star, because it appears when there are no stars visible in the sky.

Community worker Tony Haimes, 37, and his wife Tina also claim to have seen the 'Spaceship'.

Tony said it had red, green and orange colours.

Another resident, father-of-four Cecil Vernon, said : 'I have had one sighting and I feel certain there could be extra-terrestrial beings out there.'

RUMOURS...RUMOURS....RUMOURS...RUMOURS....RUMOURS....

It appears that a ufo has crash landed in SCOTLAND !!. It is said, that a 300 foot long hanger has been built to hide the ufo and to camouflage it with local surroundings. It has either crashed near a wooded area or in such an area. It is also alleged, that it is guarded by armed guards.

I have heard the story from three separate sources now, and I first heard that it had landed near Birmingham and later that in fact it was somewhere in the county of Yorkshire. (I supposed Scotland is not all that far away).

I must admit, why hasn't anyone in the Scotland reported seeing such an obviously large object, in the skies ? Why has the newspapers not picked up on such a story ? and wouldn't someone of seen a large movement of soldiers and military equipment being moved ?

So watch out, if you are in Scotland and see an armoured column moving with a low loader lorry, and a tarpaulin covering a flying saucer shaped object, then beware, you never know what it is. At the end of the day, it could just be a secret military object that has crashed. We wait to see what happens next...ED.

£1M windfall for Trogg as life turns full circle...

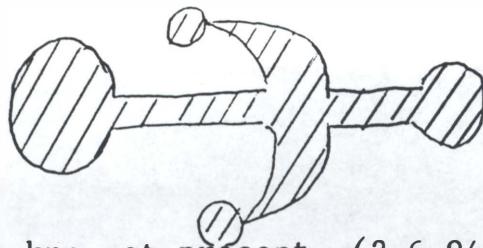

---

The 1960's star Reg Presley, who anticipates royalties of up to £1 Million pounds. It will go on researching the phenomenon of crop circles, which has been his obsession for 4yrs. He is close to finishing a book on the subject and he wants to film them from the air. 'Most are hoaxes, but 25% aren't. I have to say I think some are made by ET's.

Circle Update :

---

It appears that Wiltshire has again this year been the centre of attraction for crop circle formations. A good friend of mine, Mr Bob Schindler (Southern Paranormal Investigations Group), visited the area of Silbury, West Kennet area the weekend prior to the May bank holiday, and noted only one or two formations. The following weekend, he visited the area again, and suddenly, more formations appeared, it seemed, over the Bank holiday period. He noted several formations, consisting of single circles, with circles in the centre, circles with satellite circles, and circles with half moons inside them. He noted one circle with a diameter of around 60ft. At West Kennet, there was a cross in the field, and near Silbury, there was a formation with a 'STING IN ITS TAIL', that's right, a scorpion...!!! There is also a pictogram as follows :

I donot know at present (2.6.94) of any other formations found in the British Isles, or any other country. By my next newsletter, I hope to bring you up to date with circle formations world wide (If there are any of course..!!!).
